

# 621C3

## Dual Input Differential Manometer Kit

621C3 consists of the following:

### 621 Manometer

← A612 Boot w/ tilt stand

**Measurement Range:** ±120" H2O  
**Input Type:** Dual Differential (1/4" Barbed)  
**Resolution (max):** 0.001" H2O  
**Accuracy:** +/-0.2% of full scale

**Distributed by:**

Tel: 602-795-8292, Fax: 602-795-4624

### A605 T Fitting (x2)

Ideal for use on setting pressure switches

### A774 Tubing

6 foot length of silicone tubing for pressure measurements. Very flexible and will not go hard in cold temperatures.

### A776 Static Tip (x2)

Measure static pressure with A776. It has a magnet to secure in place in duct work 1/4" hole required to use

### A791 Adapter Tube

Flexible tubing for connecting to larger fittings

### A908 Carrying Case

Soft padded case with shoulder strap holds the thermometer and probes.
