Cat No: 52025221

UPC No: 783310867876

Description

- Troubleshoot irrigation systems
- Activate and cycle solenoids
- Test solenoids for continuity
- Send tone to identify wires
- Measure clock voltage
- Low battery indication
- Easy-to-understand LEDs
- Test leads with "Bed-of-Nails" and piercing Pin Clips
- 1-year limited warranty

Specifications

- Battery : 9 V Alkaline
- Battery Life : 3 HR Continuous
- Includes : 700C Carrying Case
- Maximum Distance Range To Activate One Solenoid :
 - 12 AWG Loop 3000.000 - 13000.000 FT
 - 14 AWG Loop 2000.000 - 8500.000 FT
 - 18 AWG Loop 500.000 - 3000.000 FT
- Minimum Battery While Testing : 10.5 VDC
- Minimum Voltage For Clock LED : 15 VAC
- Replacement Part : 700C Carrying Case
- Solenoid Circuit Recharge : 2.5 S
- Storage/Operating Temperature : 32 - 122 DEG F
- Sub Brand : Station Master
- Type : Pro
- Voltage Rating : 28 VAC
