

30-793 OmniSeal™ PRO XL Coax Compression Tool

Our flagship compression tool for terminating all IDEAL coax compression connectors and nearly every other compression connector available in the market. Eliminates the need for carrying multiple tools for different types of connectors.

- Permanently compresses F/BNC/RCA/RG-11 F/ Mini/ and 90° connectors
- No adapters are required for IDEAL connectors
- No tool adjustments required for IDEAL connectors (except 90°)
- Tool comes factory preset to compress IDEAL F/BNC/RCA/RG-11 F connectors
- Adjustable post and adjustable spin knob offer compatibility with other non standard or non-IDEAL compression connectors
- Locknut keeps post in fixed position
- Adjustment lines for post height changes
- 2 spring clip levels and 1 fixed ledge to compress against
- Powder coated, aluminum die cast frame
- Dual textured non-slip textured handle grip for comfort
- Handle locking clip
- F post on top of tool helps cable to connector insertion
- Spring loaded handle
- Manufactured in Sycamore, IL
