

15" AND 21" PRY BARS

Forged from carbon steel for long-lasting sharpness

15" AND 21" PRY BARS

The Klein Tools 15" and 21" Pry Bars are forged from carbon steel with corrosion-resistant coating making them designed to withstand the toughest of jobsite conditions. The TPR grip provides added comfort by dampening vibration and offering slip-resistance. The sharp, beveled edges allow users better penetration to pry in tight spaces. These pry bars are hardened for long-lasting sharpness.
