1-MAN BUCKET COVER

BUCKET WORK CENTER™

BC516C shown

- Ratcheting tightening mechanism ensures secure installation, withstands wind speeds up to 85 MPH, and allows for quick removal and installation at the job site
- Durable 1000D seam-sealed cover designed to withstand rain, snow, and extreme weather conditions
- Rigid panels engineered to prevent sagging and water pooling, even under heavy snow
- Six tether points with included carabiner and lanyard for flexible and secure attachment options
- Designed for easy storage: fold and secure with the built-in strap and clip for truck bay storage, or hang from a rail using the provided straps and clips
- Bucket Works Center rail attachment clips for additional connection point
