

EXTECH®

Q3 2025 - NPI LAUNCH DECK

WATER QUALITY INDOOR AIR QUALITY REFRIGERANT LEAK DETECTION

Teledyne Confidential: Commercially Sensitive Business Data

KEY FEATURES

EXTECH®

EC700

- Measure multiple parameters at once
- Optical DO probe improves performance and reliability

CO270

- Only battery-operated CO₂ meter in Extech portfolio
- Protection against theft and modification

RD350

- Higher sensitivity
- Replaces RD300 (discontinued July 2024)

Proprietary - Company Confidential Copyright ©2024 Teledyne FLIR, LLC. All Rights Reserved. Information and equipment described herein may require US Government authorization for export purposes. Diversion contrary to US law is prohibited.

6-IN-1 WATER QUALITY METER WITH 3 PROBES

One Tool for Multiple Parameters

- pH
- Conductivity
- TDS
- Salinity
- Dissolved Oxygen (DO)
- Temperature

- Large LCD Screen
- Stores and Recalls Readings

- Optical DO Probe
- Simultaneous Measurements
- Compensation for Air, Pressure and Salinity

Ordering #	Model Description	UPC	USD \$ MSRP

CO270

BATTERY OPERATED AIR QUALITY CO₂ METER

EXTECH

Compact and Versatile

- Battery Operated
- 1-Year Battery Life (ECO Mode)
- Desktop or Wall-Mount

Multiple Measurements and Alarms

- Temperature / Humidity / Dew Point / CO₂ Levels
- Programmable Buzzer
- Visual Air Quality Indication

Advanced Features

- Anti-theft Mounting Hardware Included
- Anti-modification feature
- Recall Peak and Average Measurements

BATTERY OPERATED AIR QUALITY CO₂ METER**EXTCH[®]**

Facilities

Offices | Conference Rooms

Compact. Battery powered with up to 1 year battery life. Includes anti-theft and anti-modification features.

Facilities Managers, Safety Professionals, Floor Supervisors

Facility Managers, Safety Managers, Office Managers

Do you need to monitor temperature and humidity? Do you need to follow new regulations regarding employee comfort and safety? Do you keep track of temperature and humidity in your facility? Are workers complaining about high temperatures in the office? Do you have areas with high occupancy? Do you check for proper ventilation in indoor areas?

The Extech CO270 Air Quality Meter delivers precise CO₂, humidity, dewpoint, and temperature readings—all powered by just three AAA batteries for up to a year. With a large, easy-to-read display, graphical air quality indicators, and anti-theft features, it's perfect for manufacturing sites, warehouses, schools, offices and healthcare facilities

RD350

REFRIGERANT LEAK DETECTOR

EXTECH

High Performance

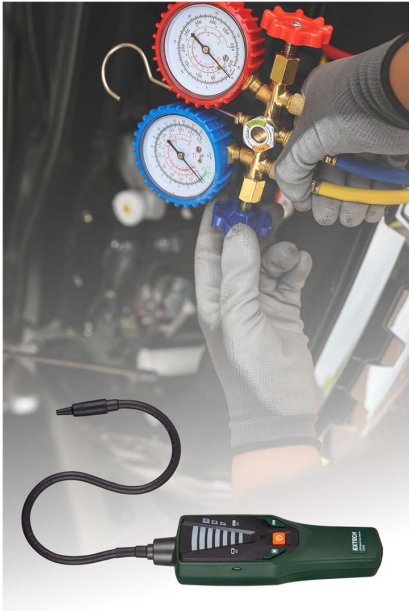

- Heated Diode Gas Sensor
- High Sensitivity
- Detects All Common Refrigerant Gases

Advanced Features

- 3 Sensitivity Levels
- Audible Alarm with Variable Intensity
- Flexible Gooseneck

Includes Multiple Accessories

- Hard Carrying Case
- Reference Leak
- Batteries

REFRIGERANT LEAK DETECTOR

EXTech®

Residential HVAC

Air Conditioning

Audible and visual alerts. Highly sensitive with ambient concentration reset. Includes reference leak and hard carrying case

HVAC Technicians, Refrigeration Technicians,
HVAC Contractors, Automotive Air Conditioning
Specialists, Facilities Managers

HVAC Technicians, HVAC Contractors, Home Inspectors

Do you troubleshoot HVAC systems? Do you inspect refrigeration systems? Are you currently using a freon leak detector? Are your customers noting that their air conditioner is not working well? Are your customers complaining about higher energy bills? Is ice building up in the evaporator coils?

The Extech RD350 Refrigerant Leak Detector features a highly sensitive heated diode sensor. It detects a wide range of refrigerants—including R410A, R32, R134a, and more with a sensitivity of just 3g/year. Its tri-colored LED leak level indicator, variable audible alarm, and flexible 15.5" probe make pinpointing leaks effortless.
