LINESET CLEANER

The hilmor Lineset Cleaner uses a pressurized source to launch a foam pig into the line set to wipe the pipe clean of contaminants and remaining refrigerants.

Picture-Perfect Cleaning

Simply connect the correct nozzle, chamber the corresponding pig size, connect to a regulated compressed nitrogen source, and pull the trigger for a perfectly clean lineset.

Twice the Versatility

One tool that has the ability to effectively wipe contaminants and remaining oil from linesets ranging from 1/4" to 1-1/8".

Premium Care

The rinseable/reusable foam cleaning pigs are specially formulated and manufactured to flow through normal lineset configurations and most deformations.
