NVR3

Tri-Port Valve Core Removal Tool (VCRT)

Recovery, Evacuation & Charging

3 Ports in 1 tool

Industry's First 3-Valve Multi-Process Core Removal Tool

3 Ports, 2 Sizes, 1 Tool

- Charging, Purging, Recovery, Evacuation, Leak-Testing without removing any hoses
- 1/4" and 5/16" fittings in one tool
- Facilitate triple evacuations

3 Ports, 3 Ball Valves

- Hose or gauge isolation prevents cross contamination and pressure damage
- Robust 1/4 turn ball valves for precision flow control

Built to Last

- Built to work with most refrigerants, including A2L
- Rugged internal components for tough applications
- Metal handles for durability

Modern Features, Sleek Aesthetic

- Sleek matte black finish
- Tactile knurling for maximum grip while wearing gloves
- Strong magnetic stem base keeps valve core off the ground
